Specification：

Model	4-inch machine KX-S5-04	5-inch machine KX-S5-05	6-inch machine KX-S5-06
power supply	220V/110V 50/60HZ		
Maximum wire diameter	0.02MM	0.06MM	0.07MM
Minimum wire diameter	0.05MM	0.3MM	0.4MM
Maximum finished outer diameter	30MM	40MM	45MM
Minimum finished outer diameter	6MM	7MM	8MM
Maximum finished product height	20MM		
Cable motor	Hybrid stepping motor		
Main motor	Brushless DC Motor		
Winding speed	Adjustable,the fastest equipment is 1500rpm	Adjustable,the fastest equipment is 1300rpm	Adjustable,the fastest equipment is 1200rpm
physical dimension	540mm*680mm*5400mm		
weight	25Kg		

Advantages：

1. The ring winding machine is suitable for the production of various ring coils.
2. The storage ring and guide wheels can be replaced according to different product requirements. The equipment adopts a desktop design with a simple and compact appearance.
3. Corresponding storage rings and guide wheels are configured according to customer requirements.
4. According to the winding requirements of the customer, products of different sizes can be selected, such as 4-inch, 5-inch and 6-inch machines.

Market scope：

We work closely with Southeast Asia, European, America, South America, Australia, New Zealand partners to provide local sales, support and service assistance for coil winding machines.

FACTORY:

Founded in 1993, KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD. has established itself as a well-known manufacturer specializing in high-performance winding machines, along with associated production equipment and technical expertise. A standout in its specialized product lineup is the KX-S5 Semi-automatic Edge-slip Type Toroidal Winding Machine—a semi-automated solution engineered with an advanced edge-slip mechanism, designed for precise and efficient winding of toroidal components, perfectly reflecting the company’s focus on innovative toroidal winding technology.

Beyond delivering specialized equipment like the KX-S5 Semi-automatic Edge-slip Type Toroidal Winding Machine, KIOXIA LIGHT RING provides highly cost-effective comprehensive manufacturing solutions. These solutions cater to the production needs of various wound components, including transformers, chokes, and more, ensuring reliable support for efficient, high-quality processing across diverse winding applications.
