KX-YW110 Single-station multi-functional winding machine

Specification：

Wire width	0.5~6MM
Wire thickness	0.1~1.5MM
Capacity	200 - 500 pieces per hour
Machine size	1200*1000*700MM
Supply voltage	220V
Power supply power	500W
Max speed	1.5 meters per second.
Weight	230KG
Air pressure	0.6

Advantages：

1. High winding efficiency, with an output capacity ranging from 200 to 500 pieces per hour (winding speed is 1.5 meters per second)
2. The fixture replacement is simple, and the left and right windings can be switched according to the product
3. The operation is simple. It takes only ten minutes to master the operation, and 100 winding data can be saved
4. It can be matched with simple sample molds to produce samples

Application：

FACTORY:

We, KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD. have been experts in winding machine lines for 28 years, with our versatile product portfolio including innovative solutions like the KX-YW110 Single-station multi-functional winding machine — a single-station equipment engineered for diverse winding needs, embodying our technical capability to develop multi-scenario applicable winding technologies.

Our KIOXIA LIGHT RING brand holds authoritative certifications and recognitions, including ISO9001:2015, CE approvals, multiple machine patents (covering key innovations of models like the KX-YW110 Single-station multi-functional winding machine), and the official designation of "high-tech enterprise" by the government. These credentials fully validate the reliability, safety, and technical excellence of our entire product range, reinforcing our commitment to delivering professional and adaptable winding equipment solutions.
