KXT-800A

Full automatic slider type toroidal core winding machine

KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD.

Add: Building G, No.209 Zhonghuan East Road, Free Trade Zone (Airport Economic Zone), Tianjin

1.Specification：

Machine head	KXT-800A-S4	KXT-800A-S5	KXT-800A-S6
Wire diameter	0.06-0.18mm	0.1-0.28mm	0.1-0.28mm
Minimum finished diameter	6mm	8mm	10mm
Core height	4-15mm	5-15mm	5-20mm
Core outer diameter	10-25mm	20-40mm	20-40mm
Magazine inner diameter	98mm	120mm	135mm
Magazine height (mm)	2.8, 3, 3.2, 3.5, 4, 4.2	3.5, 4, 4.5, 5, 5.5, 6, 7	4.5, 5, 5.5, 6, 6.5, 7
Machine size	110*60*132cm		

2.MACHINE INTRODUCTION：

The KXT-800A is an up-to-date high speed automatic winding machine to mini type coils production on large scale. This model machine can assist you to finish some production which request of high output and high quality with low cost. In order to solve down mini type core with fine wire and difficulty to operation, KXT-800A use new design for pay-off core automatic, pay-off wire automatic. During production, it doesn't use manual operation. It decrease labor's strength.Meanwhile it guarantee the quality of coils. The user friendly PLC software guides the operator thru the programming with clear text commands. It is easy to operate the machine.It keep the feature of easy operation about KXT-800A machine. This control system use Chinese and English version.the guide roller use stepper motor driver, easy to adjust wire pitch and precision control.

3.MACHINE FEATURES:

1.Independent loading wire speed and length control

2.Independent traverse speed and turn control.

3.Display language with Chinese and English, and touch panel operation.

4.Display current state and easy to check data.

5.Programming control stepper motor to drive core and run to any direction.
6.Controller memory some winding programs, each program edit different winding step sequence to fit for different request.
7.Set up the high speed fiber optic sensor. It display even number. Convenience to adjust and precise steady.
8.Control variable pitch, from sparse traverse to tiny traverse to get the result through programming.
9.Use servo motor, loading wire precise highly and speed steady. Loading and traverse speed switch steady.

4.PRACTICAL APPLICATION :

TRAINNING CUSTOMER TO OPERATE WINDING MACHNE :

1. All service engineers with 10 years experience are gotten special technology training, who c an deal with various breakdown problem.
2. Guide the user to use accurately and how to maintain the Hook Type Transformer Winding Machine. Provide free consultation about production process technology of electronic products.
3.In order to guarantee the machine used normally, we'd have training on how to operate, use and maintain our product by English manual, video, guiding on line.

5.Packaging

Packaging Material: Carton/Wooden case with foam inside. 1. General package(Paper carton or plastic bag): For small equipped parts for Digital CNC Wire Coil Winding Machine, Package it with form and pack paper to guarantee unbroken during the transport. 2.Wooden case package: For larger scale Digital CNC Wire Coil Winding Machine ,we have special skilled carpenter, who would make the proper wooden case with exact thickness, density,length. The up arrow ↑marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.

KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD.

6.Market Area

We work closely with Southeast Asia, European, America, South America, Australia, New Zealand partners to provide local sales, support and service assistance for coil winding machines.

7.FACTORY:

KIOXIA LIGHT RING EUIPMENT GROUP CO.,LTD.

Founded in 1993, KIOXIA LIGHT RING EUIPMENT GROUP CO.,LTD. has been a well-known manufacturing excellent performance winding machines together with associated production and technology. Grewin provide highly cost effective manufacturing solutions for the production of the wound components of all types such as transformers,chokes etc.
